

QuickBooks Online Help & Support – Fix Issues and Get Expert Assistance

QuickBooks Online makes running your business smoother, but sometimes you might face issues that need quick solutions. This guide walks you through how to reach expert help, troubleshoot common problems, and find trusted QuickBooks resources online.

[n Call QuickBooks Support at 1-855-291-1711 \(Official U.S. Support Line\)](#)

How to Get Help from QuickBooks Experts• Log in to QuickBooks Online and click the ? Help icon at the top-right of your dashboard.

- Select **Contact Us** and describe your issue (for example, 'Error 102' or 'Invoice not sending').
- Choose to chat with a support representative or request a call back.
- You can also call **1-855-291-1711** to speak directly with an official Intuit QuickBooks expert.

Common QuickBooks Issues and How to Fix Them

- **Error 102 – Bank Connection Issue:** This usually happens when your bank's website is under maintenance. Try reconnecting your account after a few hours.
- **Error 6000 – Company File Problem:** Use QuickBooks File Doctor to repair your company file and reopen it.
- **Login Problems:** Clear your browser cache or reset your Intuit account password.
- **Slow Performance:** Close unused browser tabs and ensure your internet connection is stable.
- **Invoice Errors:** Check your email settings and confirm invoices are being sent from your verified business email.

Quick Troubleshooting Tips

- Clear your browser cache and cookies for better performance.
- Use Google Chrome or Microsoft Edge for optimal results.
- Restart QuickBooks and your browser to refresh your session.

- Check your system time and date — incorrect settings can cause sync issues.
